

# AGI Safety Solutions Map

Created by Alexey Turchin based on the article "Responses to Catastrophic AGI Risk: A Survey" by Kaj Sotala and Roman V. Yampolskiy, 2013  
Ideas from the article are inside red border line.  
Ideas not derived from the article are marked to their authors in [...]  
"No" means that a method definitely will not work (it is point of view of Alexey Turchin and other people may have different opinions)  
"May be" means that a method definitely will not work (it is point of view of Alexey Turchin and other people may have different opinions)  
"Marginal" that a method may be used for short time or as an additionally precaution measure but don't change the situation much.  
"Promising" means that a method seems to be good enough to invest more in its research.
